

Company profile

Jiangsu aofusai Industrial Development Co., Ltd. is composed of labor protection products division, stage truss division and photoelectric Division, with a registered capital of RMB 10.01 million.

Relying on strong advanced technology, the labor protection products division has introduced many production lines, with an annual production capacity of 90 million pairs of latex gloves, covering household dipping, suede spraying, PVC and industrial latex gloves, and can process customized samples according to customer requirements. The company always takes reputation as the basis of survival and mutual benefit as the way of management, providing high-quality products and high-quality services, so that every partner can continue to win the harvest of the cause.

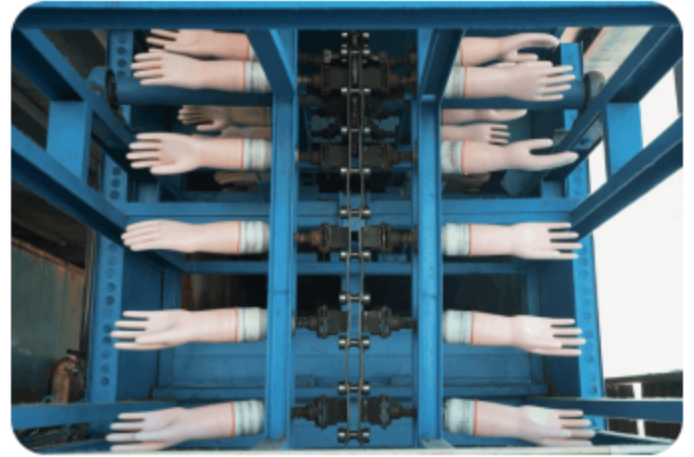

The stage truss business division was established in 2018. After three years of development, it has embarked on large-scale and professional manufacturing. In 2021, it will be officially incorporated into aofusai industry.
